Exterior

LOUVERS

Enhance your exteriors with high-quality WPC Louvers from AURNUM XTERIOR – designed to replicate the natural look of wood without the hassle of maintenance. Our WPC (Wood-Plastic Composite) Louvers are the ideal solution for modern architectural design, combining durability, affordability, and aesthetic appeal.

Crafted for those who value eco-friendly living and love staying close to nature, our pre-finished, ready-to-install WPC Louvers offer a cost-effective alternative to real wood cladding. Engineered to be 100% water-proof, termite-proof, and low maintenance, these WPC Louvers are perfect for both residential and commercial exterior applications.
